

Coalition Briefs

A SEMI-MONTHLY UPDATE ON COMMUNITY MENTAL HEALTH IN NEW YORK

Three SNPs in RFP

The Coalition has succeeded in its campaign to have at least three Adult Mental Health Special Needs Plans designated for New York City. The Request for Proposals (RFP) just released by the State Office of Mental Health indicates that 3 SNPs will be procured for the City, to serve a city-wide geographic area.

The RFP appears on the SOMH website, which can be reached through the "Links" section of The Coalition's website at www.cvmha.org. Letters of intent to bid must be submitted by August 2nd, and an Offerers' Conference will be held in Albany on Thursday, September 13th. The proposal deadline is December 16th, and the "target" date for contract signing and start-up for City SNPs is July 2001, which is six to nine months later than the similar target for Up-state and Westchester-area SNPs.

Our very preliminary review of the rates set forth in the RFP makes us wonder whether New York City's rates have been somewhat unfairly disadvantaged, in comparison to those for other areas of the State. ▣

DOJ study of prisons

According to a study released by the United States Department of Justice on July 11th 16% of the prison population in America (283,800 people) has a severe mental illness. Furthermore, prisoners with mental illness are almost twice as likely as other inmates to have been homeless, abused, or chemically dependent prior to their incarceration. Inmates who struggle with mental illness end up sending on average more than 15 months longer incarcerated than their counterparts. These same inmates are repeat offenders who fall into a cycle of incarceration, homelessness and chemical dependence. ▣

State budget process comes unstuck Mental Hygiene table reaches preliminary agreement Leaders approve dollars for mental health housing

After agreeing to revenue figures last week that are approximately \$1.1 billion above the Governor's proposal, the legislature is, for the second time in history, convening conference committees to determine where the additional money is to be spent. The legislature's clear focus is on health and education, with a particular eye to restoring the Governor's cuts in those areas. Money has been allocated to the committees as follows (in millions):

Health	\$355
Education	\$360
Higher Ed.	\$150
Mental Hygiene	\$15
Public Protection	\$10
Economic Development	\$10
General Government	\$10
Transportation/Housing/Environment	\$10
Human Services	\$10
General Conference Committee	\$170

After numerous meetings the Mental Hygiene conference committee, chaired by Assemblyman James Brennan and Senator Tom Libous, has reached a preliminary agreement on how to allocate the \$15 million available. This recommendation will be taken into consideration by the General Conference Committee, and may change there. The numbers below represent that tentative agreement:

Office of Mental Health

Children's services	\$2,050,000
Shared staff restoration (at least 66 positions)	\$2,530,000
Psychiatric residency slots restoration (restores 9 of 18 cut positions)	\$400,000
Case management (not ACT teams)	\$1,500,000
Healthcare proxies and advanced directives (education and outreach)	\$1,000,000
Supported employment	\$402,500
Nathan Kline Institute	\$235,000
Community services	\$883,500
<i>Total</i>	<i>9,001,000</i>

Office of Alcoholism and Substance Abuse Services

Treatment services	\$2,500,000
Community service initiative	\$850,000
<i>Total</i>	<i>\$3,350,000</i>

(Continued on page 2)

Coalition Briefs

State budget moves rapidly

(Continued from page 1)

Office of Mental Retardation and Developmental Disabilities

Community services	\$1,374,000
Youth opportunity program	\$900,000
Epilepsy foundation	\$300,000
Chaplain services	\$50,000
Total	\$2,624,000

Office of the Disability Advocate \$25,000

The General Conference Committee, making all decisions about capital funding, has apparently agreed to spend \$50,000,000 on housing for people with mental illness. This money would be used to fund part of the housing initiative proposed by Assemblyman James Brennan earlier this year. We are concerned that the money seems to be for buildings alone with no services, but we are very pleased at the recognition by the legislative leaders of the tremendous need for housing for people with mental illnesses.

The legislature now needs to put the budget into bill form and vote on it, and the Governor must sign it, so expect at least a week to pass before the budget is finalized. □

Service Coordinator, **The Children's Aid Society** seeks someone for Adoption & Foster Care Services Dept. & for Early Intervention Program. MBHO enrollment rises

According to statistics recently released by Open Minds over 72% (176.8 million) of the 244 million insured Americans are enrolled in Managed Behavioral Health Organizations. This figure represents only a minor increase of 1.9% over last year's figure of 149 million. This contrasts with the 107% increase from 86.3 million in 1993. Magellan Health Services continues to dominate the market with a 36.6% market share. □
